EDUCATION

Aravali College of Engineering and Management CGPA: 7.6
Bachelor in Mechanical Engineering, J.C Bose University *Aug. 2017 – May 2021*

Vidya Niketan School No.2 Faridabad 75%
Intermediate *Mar. 2015 – May 2016*

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, HTML, CSS, SCSS
Back-end: Django, Node.js, Django RestFramework
Database: PostgreSQL
Libraries: React.js, Next.js, Redux Toolkit, Tailwind CSS, Material UI
Developer Tools: Git, Github, Vite, VS Code, Postman, AWS
Others: UI Design, Figma, Canva

PROJECTS

Wristly | React.js, Tailwind CSS, React Router, React Slick [Github](#) | [Live](#)
- Built a modern e-commerce frontend application using React and styled it with Tailwind CSS for a sleek and responsive design
- Integrated React Slick to create smooth and responsive carousels for showcasing featured products
- Implemented navigation using React Router DOM and deployed the application on Netlify for fast, reliable delivery with automated builds

Getit | React.js, React Toastify, DRF, Simple JWT, Razorpay API [Github](#) | [Live](#)
- Developed an e-commerce website for gaming accessories using React for the frontend and styled with Tailwind CSS, ensuring a responsive and user-friendly interface
- Built a RESTful backend with Django REST Framework (DRF), including secure API endpoints for products, cart, orders, and user management
- Utilized React Toastify to provide instant and user-friendly notifications for actions like blog creation, updates, and errors
- Implemented secure JWT-based authentication using Simple JWT in Django REST Framework (DRF)
- Integrated Razorpay payment gateway for seamless and secure online transactions

BlogMagic | React.js, DRF, Google Gemini AI, PostgreSQL, Cloudinary [Github](#) | [Live](#)
- Developed an AI-powered blogging application with Google Gemini AI integration for seamless blog content creation and editing
- Implemented JWT-based authentication using Django REST Framework (DRF) to ensure secure user access and API protection
- Integrated Cloudinary for efficient media upload and storage, and used PostgreSQL for reliable, secure data management
- Built a responsive frontend with React and Tailwind CSS, utilizing React Toastify for real-time notifications and Context API for state management

COURSES AND CERTIFICATIONS

Introduction to Python Oct. 2021 – Dec. 2021
Coding Ninjas

Data Structures & Algorithms in Python Dec. 2021 – Mar. 2022
Coding Ninjas

Front End | Full Stack Web Development July 2022 – Sept. 2022
Coding Ninjas

Back End | Full Stack Web Development Sept. 2022 – Mar. 2023
Coding Ninjas
